

Dear all,

The second quarter witnessed a lot of events, workshops, surveys and much more.

As you are aware, we are doing 'Impact Analysis Study'. We are glad to inform that data collection phase is over and analysis of data has been started. We are sure, in a month's time, we can have the report in our hands. This will be very helpful in determining further direction of the organization.

It is said that 'Fail to plan is plan to fail'. We have done primary surveys of the area for our proposed project for rural area, as you all are aware of. But, the outcome of it has underlined the need of systematic analysis using techniques like SCOT and PEST. *If you are an expert or if you know any expert in the field, kindly come forward, we need your help.*

It is observed that Samavedana lacks in visibility, as far as society at large is considered. As a part of branding activity, we participated in events like 'NGO India 2014', registered on 'HelpYourNGO' portal had a few discussion meetings with small groups. NGO India exhibition was a good platform to be present, because, we could get around 250 contacts including a few corporate. This will definitely help us not only in getting visibility, but in fundraising as well.

We believe that role of volunteers is very important for an organization like Samavedana. And hence every year, we organize a recreational day trip for them. This year, we had been to Chinmay Mission, Kolwan and Pavana dam on 3<sup>rd</sup> August. 48 of staff members, volunteers and family members experienced developing a strong bond of oneness.

Gain of the quarter is contacts with CMA Mr. Ashok Nawal, MD, Bizsol India Services, and Dr. Arun Gadre of Sathi Cehat during launch of their respective books. Mr. Nawal has kindly shared his contacts and Dr. Gadre has stimulated our thought process about the upcoming project.

We believe that knowledge sharing is a must in every sector, even more truly for development sector, where funds are lacking for resource development. It was a proud and joyous moment for us, when Snehalaya – a very renowned NGO for Ahemdanagar contacted us for training their employees on 'Procedures and Data Management' at Samavedana. I had been to Nagar to share our systems and data management procedure, which was followed by 3 of the Snehalaya employees spending two days at our office to understand the procedures thoroughly.

Apart from all these happenings, routine work was going on. We had 3 camps, 6 health talks, aid to 39 patients and retrieval of 5 skins.

However, as we had guessed, Rajeev Gandhi Jeevandayee Arogya Yojana has eased our work. Almost 6 patients were referred by us, who got benefitted under RGJAY. These mainly comprise of neurosurgical cases. This has given us a boost in developing of a new model, which will focus on an untouched segment. This is the crucial period, when your involvement is very important and we sincerely request you to join us in this mission of saving lives.

With regards,

Preeti Damle

Chief Executive Officer

## Important Events

**Mulshi and Purandar survey :** Mulshi and Purandar are close to city but its geographical positioning and poor infrastructure make them remote in many sense. It is observed that they are still deprived of basic healthcare as well as diagnostic service. We, at Samavedana, feel urge to reach them with the necessary solution. Thinking this in mind, we are considering of running Mobile Medical Unit or Telemedicine project, whichever may more feasible.

We conducted surveys to understand the current scenario, geography, government infrastructure as well as socio-economic background in the remote part of these regions. Primarily, we have come to conclusion that Mulshi needs urgent attention and priority in starting such initiatives. Meetings with Taluka Health Officer, Mulshi and other organizations working in healthcare in the Mulshi area.

**A workshop on Strategic Planning:** A team from Samavedana attended a workshop on Strategic Planning organized by Centre for Advanced Philanthropy, Mumbai. Learning from the workshop will help us in successfully implementing above mentioned project in Mulshi.

**Skin Donation Awareness Program:** with Sahyadri Hospital Blood Bank, we could make more than a 100 employees of Infosys aware about the Skin and Organ donation.

We are associated with online portal '**Help Your NGO**'. The portal is an online platform to showcase and promote your organization's programs, cause and initiatives. Donors from across globe can see the work we are doing and choose to support us.

**Health Check Up Camps:** We could conduct 3 checkup camps in this quarter, one each in Lonikhed, Borkarwadi and Chinhwad. A total of 184 women were benefitted out of these camps.

Women from Borkarwadi in a queue to register for Health Camp.

A team from **Snehalaya**, a renowned NGO working for destitute children and women in distress invited Samavedana and then visited Samavedana to understand how **record-keeping and documentation** is done at Samavedana. We take this gesture as receipt of appreciation for our office staff for developing a standardized system for administrative work.

**Giving Back : NGO India 2014:** We exhibited Samavedana programs at NGO India 2014. This exhibition-cum-conference is a platform for NGOs and corporate to interact with each other and take the associations further. We could interact with more than 200 individuals/other organisations as well as celebrities like Vivek Oberoi and Kunal Kapoor in this Mumbai event.

Kunal Kapoor with Samavedana representatives at NGO India 2014

**Team Samavedana** takes a day off each year and enjoy monsoon with a **one-day trip**. This year the staff and volunteers of Samavedana enjoyed the scenic beauty of Pavana Dam and experiences the serene and calm nature surrounding Chinmay Mission in Kolvan, near Pune.
