

## Retrospect

Dear all,

The end of quarter three resonates with end of the year! We utilized this year for overhauling of our mechanisms. Focused more on quality and evaluation of processes, rather than growth in numbers. This year gave us an eye for research and improvement on quality parameters. Two new programme started in this year, and the programme of cancer screening got new shape and format.

The result of these efforts were visible, when we were invited to present a paper in 'International Conference on Business and Economic Issues' organized by International Review of Business and Economics (IRBE), Denver, Colorado on December 21<sup>st</sup> and 22<sup>nd</sup>, 2017 at Mumbai. We presented a paper on 'Socio-economic Impact of FinAid Programme on Society, with family as a unit of micro-economics'. That was a proud moment for all of us.

Another important event in this quarter was 2 day residential workshop for School Health Workers on the topic of 'Adolescent Reproductive and Sexual Health' on 18<sup>th</sup> and 19<sup>th</sup> Dec. 2017 at Pune. One of the outcomes of SHP is empowerment of SHWs. 12 SHWs were trained through this program and are now capable of handling the ARSH cases in schools. Resource Persons from Step Up Foundation trained the SHWs on various issues like physical, mental changes in adolescence, the method to tackle the problems faced by children and their families etc.

Now looking forward to the last quarter for reaching out to maximum number of beneficiaries – for financial aid, for cancer screening etc. We are organizing an event 'Parikrama – Ek Paool Arogyakade' in this context on 21<sup>st</sup> Jan 2018. It will be a 3km walk for women from slum community of Upper Indiranagar, Pune. The message of "Healthy woman, healthy family" will be spread through the event. We expect 200-250 enthusiastic women to step up and walk for their health.

Warm regards,

Preeti Damle  
 CEO

## Important Events

**28-29 Oct:** Making it a point to learn from other organizations serving different demographics, Samavedana's team members visited 3 organizations in Southern Gujarat. These NGOs are doing tremendous work to serve the underprivileged societies in the field of health, education and rural development. We sure will take learnings into action to compliment Samavedana' cause.

**Oct-Dec :** 6 check up camps and 78 session for health education were arranged to accomplish first part of health programme. The results of check up camps are being sent out to each school and we are planning further action to see through the health needs of identified students. An intriguing series of session on ARSH was delivered to all 20 schools.

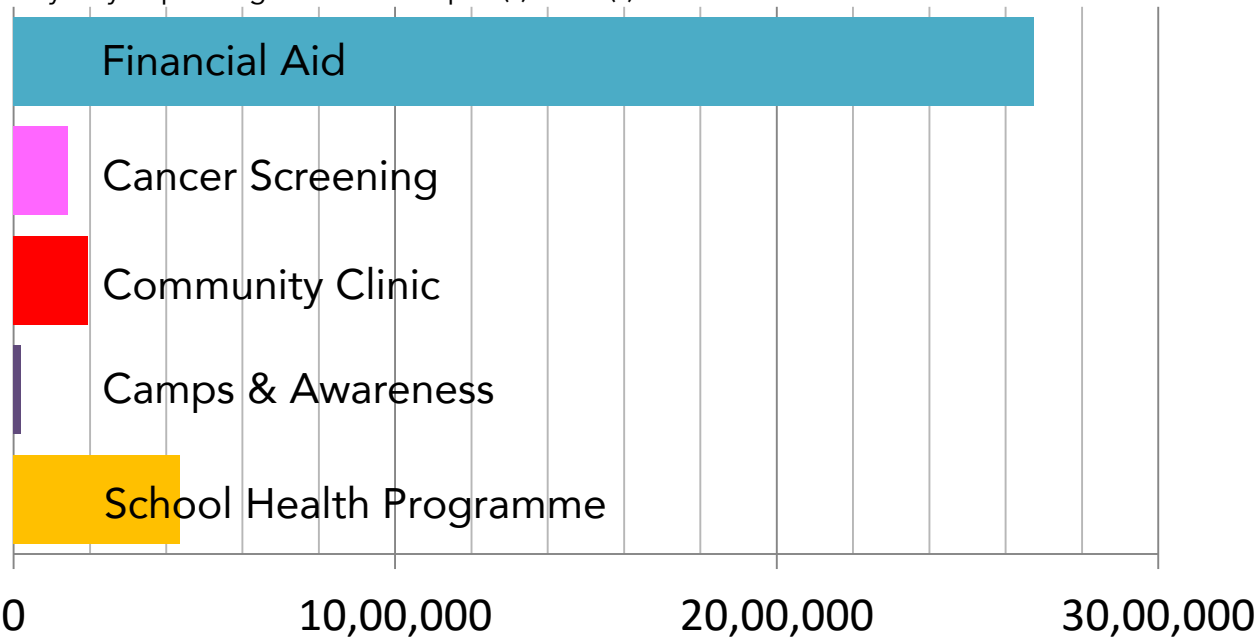

**18-19 Dec:** We have appointed School Health Workers at school level, who follows up with the students, schools and community for health related issues. For her to play this role effectively, all the SHWs were trained for understanding and handling issues about adolescence and child abuse. The workshop helped all participants great deal of knowledge.

**21 Dec:** IRBE, Denver Colorado, USA and Indira Institute of Management, Pune hosted an international economics conference in Mumbai. Samavedana was invited by Dr Kishore Kulkarni, convener of the conference, to present paper on 'Socio-economic Impact of Samavedana's FinAid programme'. The paper was praised and appreciated by all the dignitaries.
